

• MOVEQUEST PHANTOM QUICKSTART

Part 1:

Account Setup

Set up your MoveQuest account

This QuickStart guide will help you connect your wallet, activate your account, claim your free Phantom Miners, fund your in-app wallet, and download the app.

7 quick steps

• BEFORE YOU BEGIN

Get Ready

Two quick things you need before setting up your MoveQuest account.

1

Prepare Your DeFi Wallet

Use a compatible DeFi wallet with dApp access. Make sure AVAX is available in your wallet on the Avalanche blockchain, with enough AVAX to cover gas fees.

2

Have Your Referral Link Ready

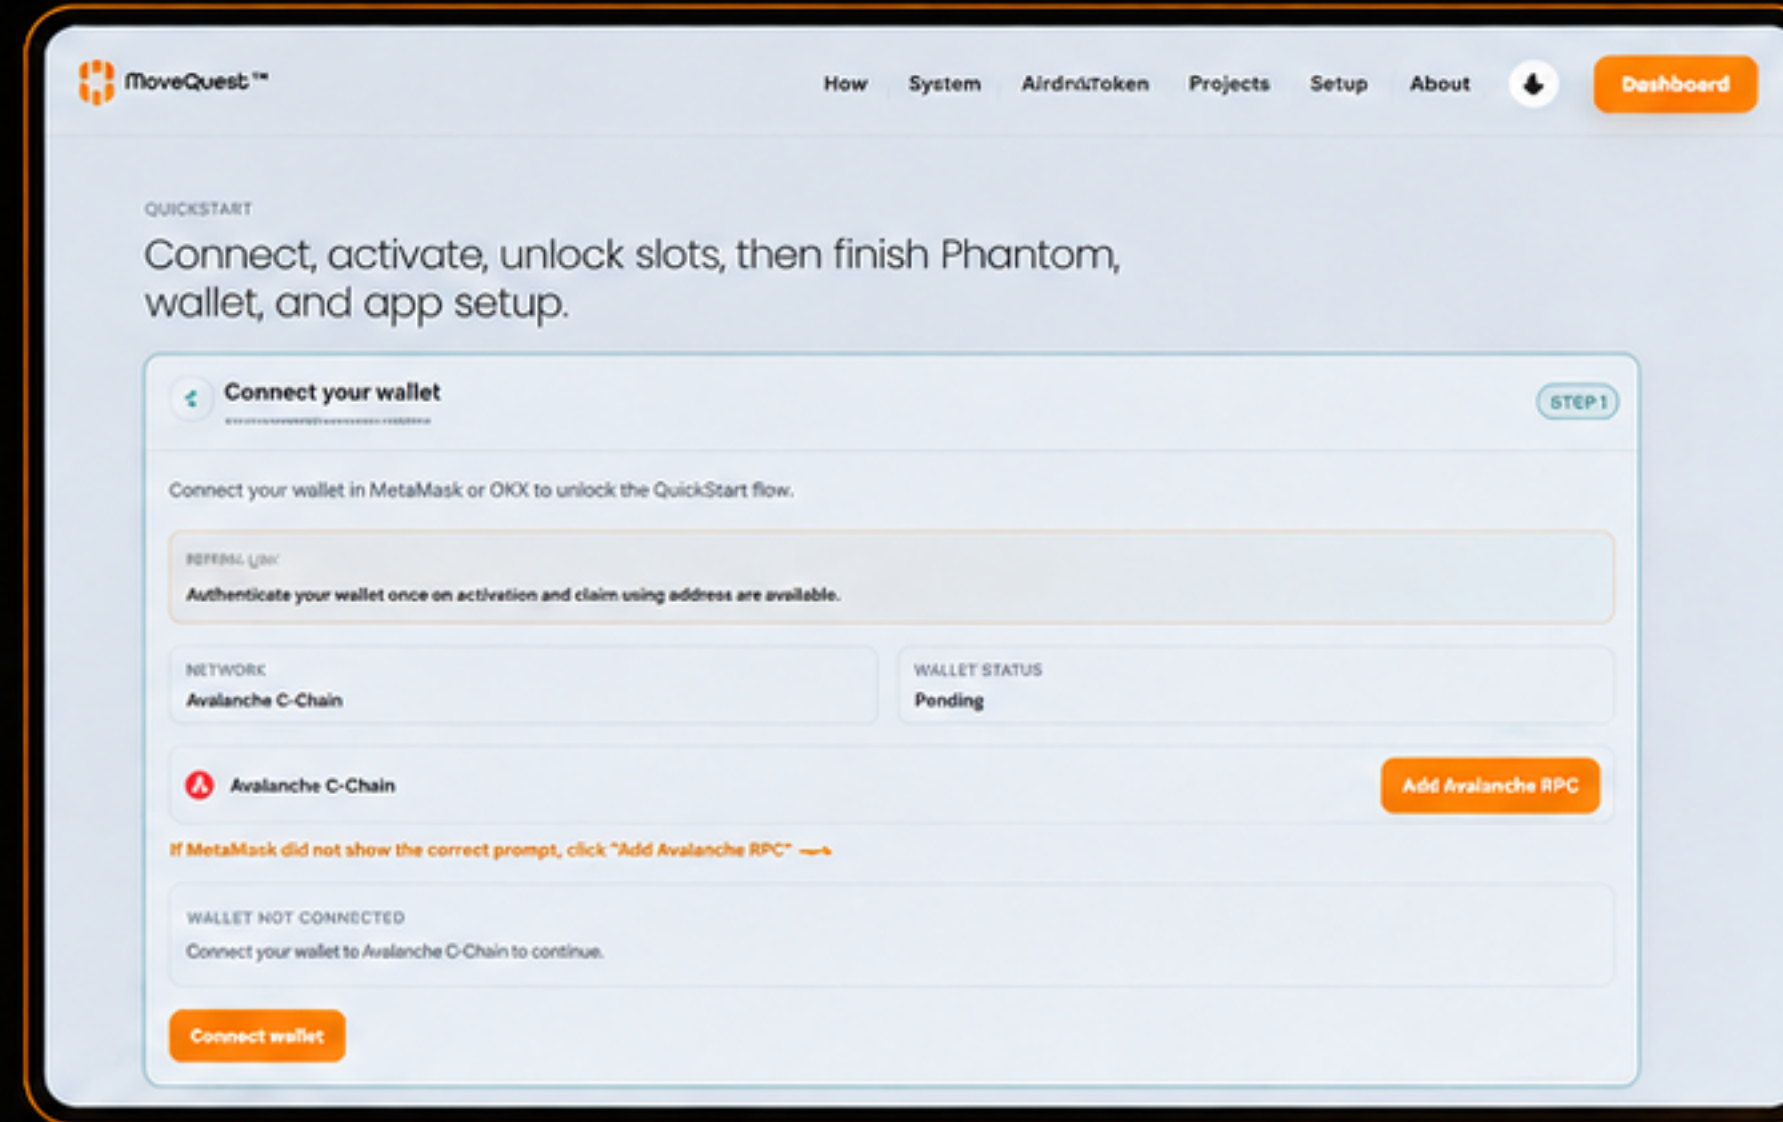

Use the referral or sign-up link provided by the person who introduced you to MoveQuest. You will use this link to establish your account.

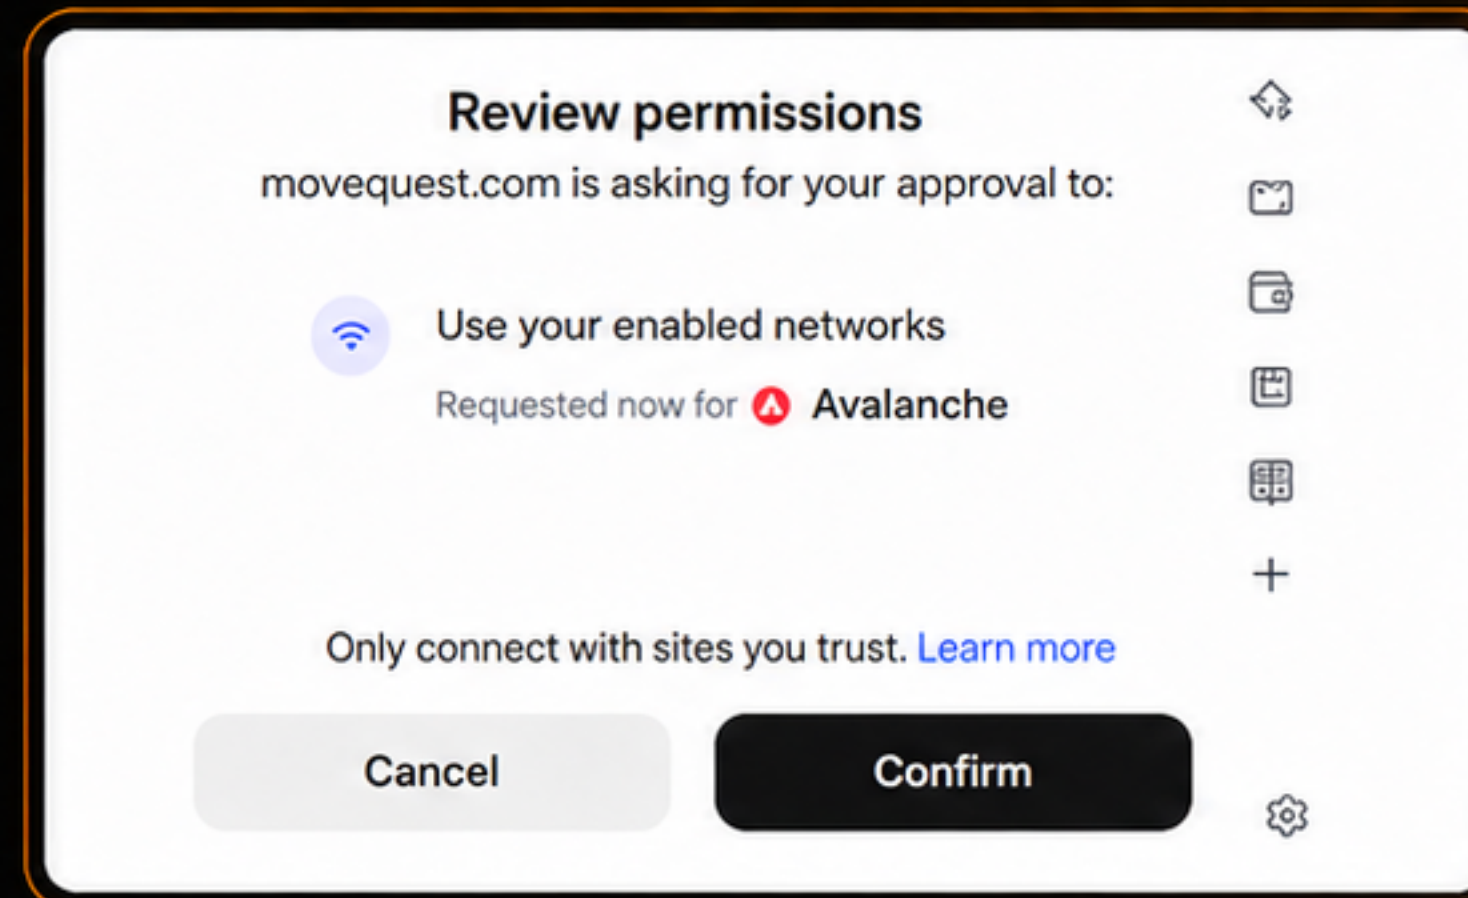

STEP 3

Open the Referral Link and Connect Your Wallet

- 1 Open the referral link in your wallet's dApp browser or in the browser where your DeFi wallet extension is installed.
- 2 The link will take you to the MoveQuest account setup page.
- 3 Select "Connect Wallet".
- 4 Your wallet will open a connection request.
- 5 Review the request and select "Confirm".

MoveQuest account setup page (Connect Wallet area)

Wallet connection request (example)

Activate and Register Your Account

- 1 After your wallet connects, MoveQuest will mark the wallet connection step as complete and open the account activation section.
- 2 Check the Activation Code or Wallet field.
- 3 When you used the correct referral link, this field should already contain your referrer's activation code or wallet address.
- 4 When the field is blank, contact the person who shared MoveQuest with you and request their activation code or wallet address.
- 5 Select "Save & Continue".
- 6 Your wallet will open a transaction request.
- 7 Review the request and select "Confirm" to register your wallet on-chain with MoveQuest.

QUICKSTART

Connect, activate, unlock slots, then finish Phantom, wallet, and app setup.

1

Connect your wallet
Wallet ready: 0xaC4166C0c209eC09gCf4edAc12E3f89151c468e2a.

DONE

2

Activate your account code
Activation is easy. Add a valid code or request a code to continue.

ACTIVE

If someone referred you, paste their wallet or code to link your sponsor on-chain.

STEP 1 GOAL
Link your referral source to activate your account and continue to slot setup.

REFERRAL INPUT
Locked from link

WHERE
Required step

ACTIVATION INFO (LINKED)
Required. Add a valid activation code to continue.

ACTIVATION CODE OR WALLET
yimnadaoE

CODE ACCEPTED
Wallet: 0xD94ab8E2A94Ac133F49Cd194380b8E0Sc3e018d a
Code: yimnadaoE

Sponsor relationship will be saved on-chain to keep referred user builder verified.

STEP 5

Skip or Unlock Dock Slots

i Optional Step

For this Phantom QuickStart setup, unlocking dock slots is optional and not required to activate your free Phantom Miners.

- 1 Review the dock-slot section.
- 2 Leave the additional slots locked unless you are ready to unlock them.
- 3 Select “Next” to continue to the Phantom Miner activation step.

The screenshot shows the 'Unlock dock slots' step in the MoveQuest interface. The page has a navigation bar with links: Home, System, Architecture, Projects, Setup, About, and a Dashboard button. The main content area is titled 'Unlock dock slots' with a subtitle 'Dock slots configuration (1 / 1 sites)' and a 'DONE' button. Below the title, it says 'Configure your slot target now, or continue and do it later.' and 'STEP 1 OF 4: Estimate slot unlock cost and unlock dock when you are ready.' A range '0.1 - 1 USDT' is shown above a text input field containing '1'. Below this, it says 'Lowest/Average: 1.2 - 18 slots.' There are three boxes: 'LOWEST 1 Slots', 'TARGET 1 Slots', and 'REMAINING 0'. A 'TARGET' button is next to the 'REMAINING' box. A progress bar shows '1 / 1 slots unlocked' and 'Remaining 0 slots'. Below the progress bar, it says 'NEXT ACTION: Target reached. You can keep adjusting the target to estimate higher slot costs.' At the bottom, there are two columns: 'TOTAL PLAN' and 'REMAINING TO TARGET'. Both columns show '16 AWX' and '0 AWOT' with a '= \$0' button. A 'Next' button is at the bottom left. Below the main content area, there is a section titled 'Activate your free Phantoms' with a subtitle 'Claim FREE phantoms (0 remains), 100% fill each or process Now.' and a 'NEXT' button.

STEP 7

Fund Your In-App Wallet

Your in-app wallet is used for daily submissions and other digital assets within MoveQuest.

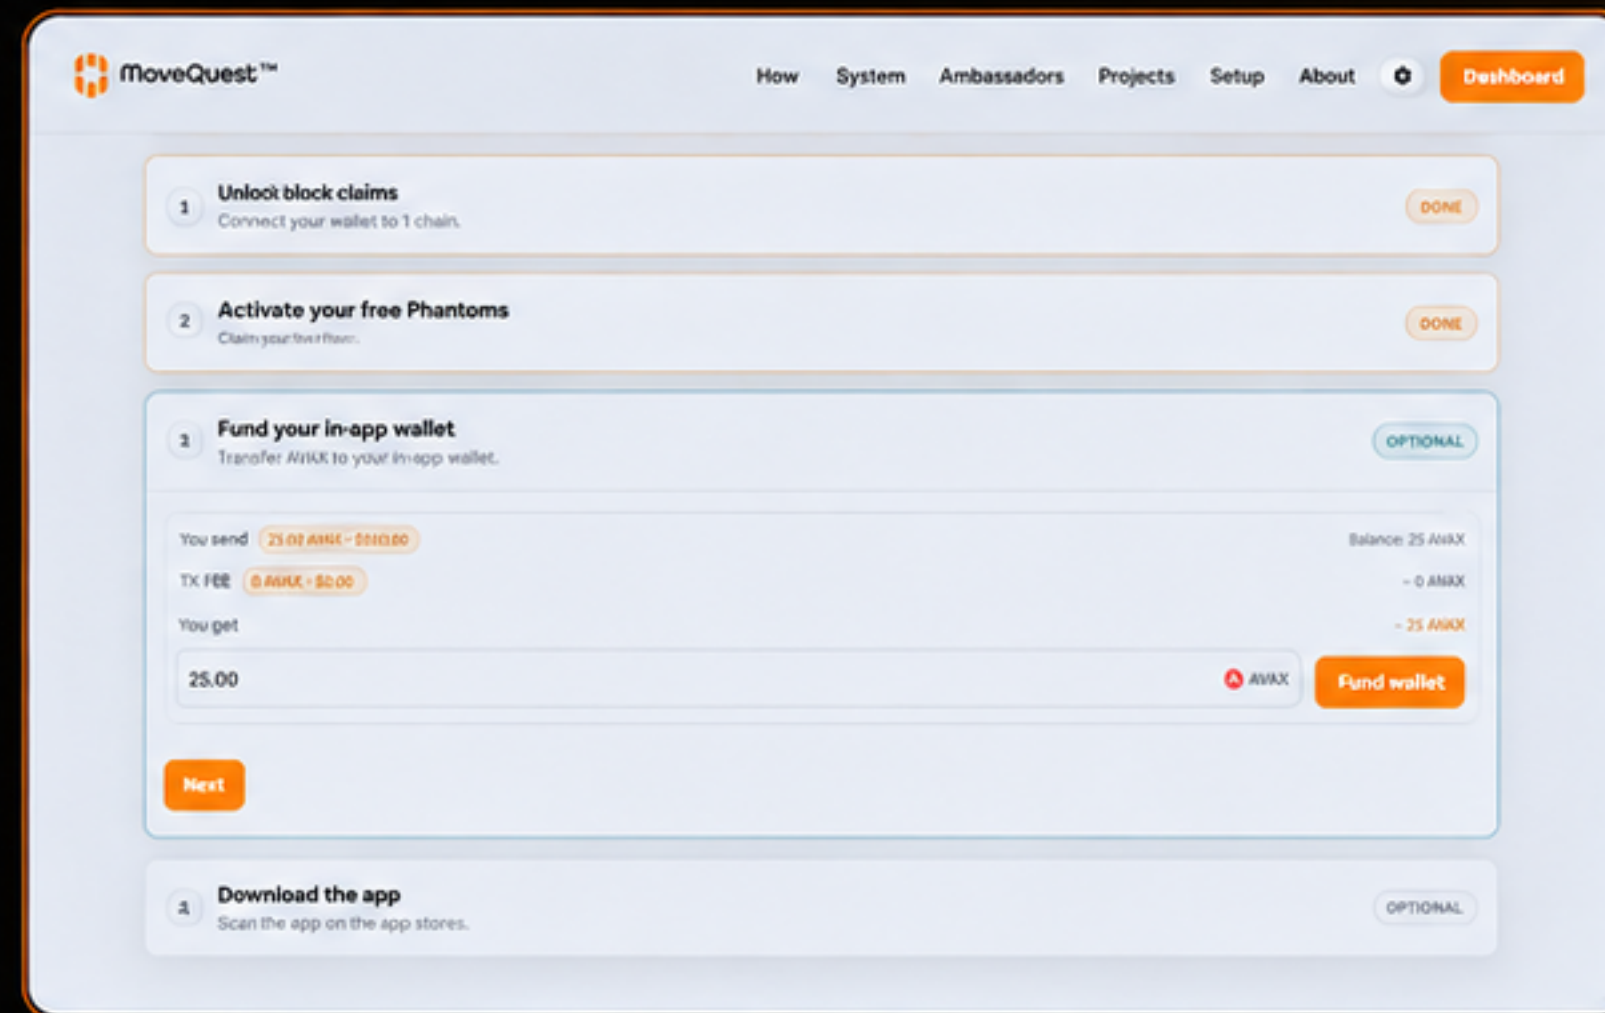

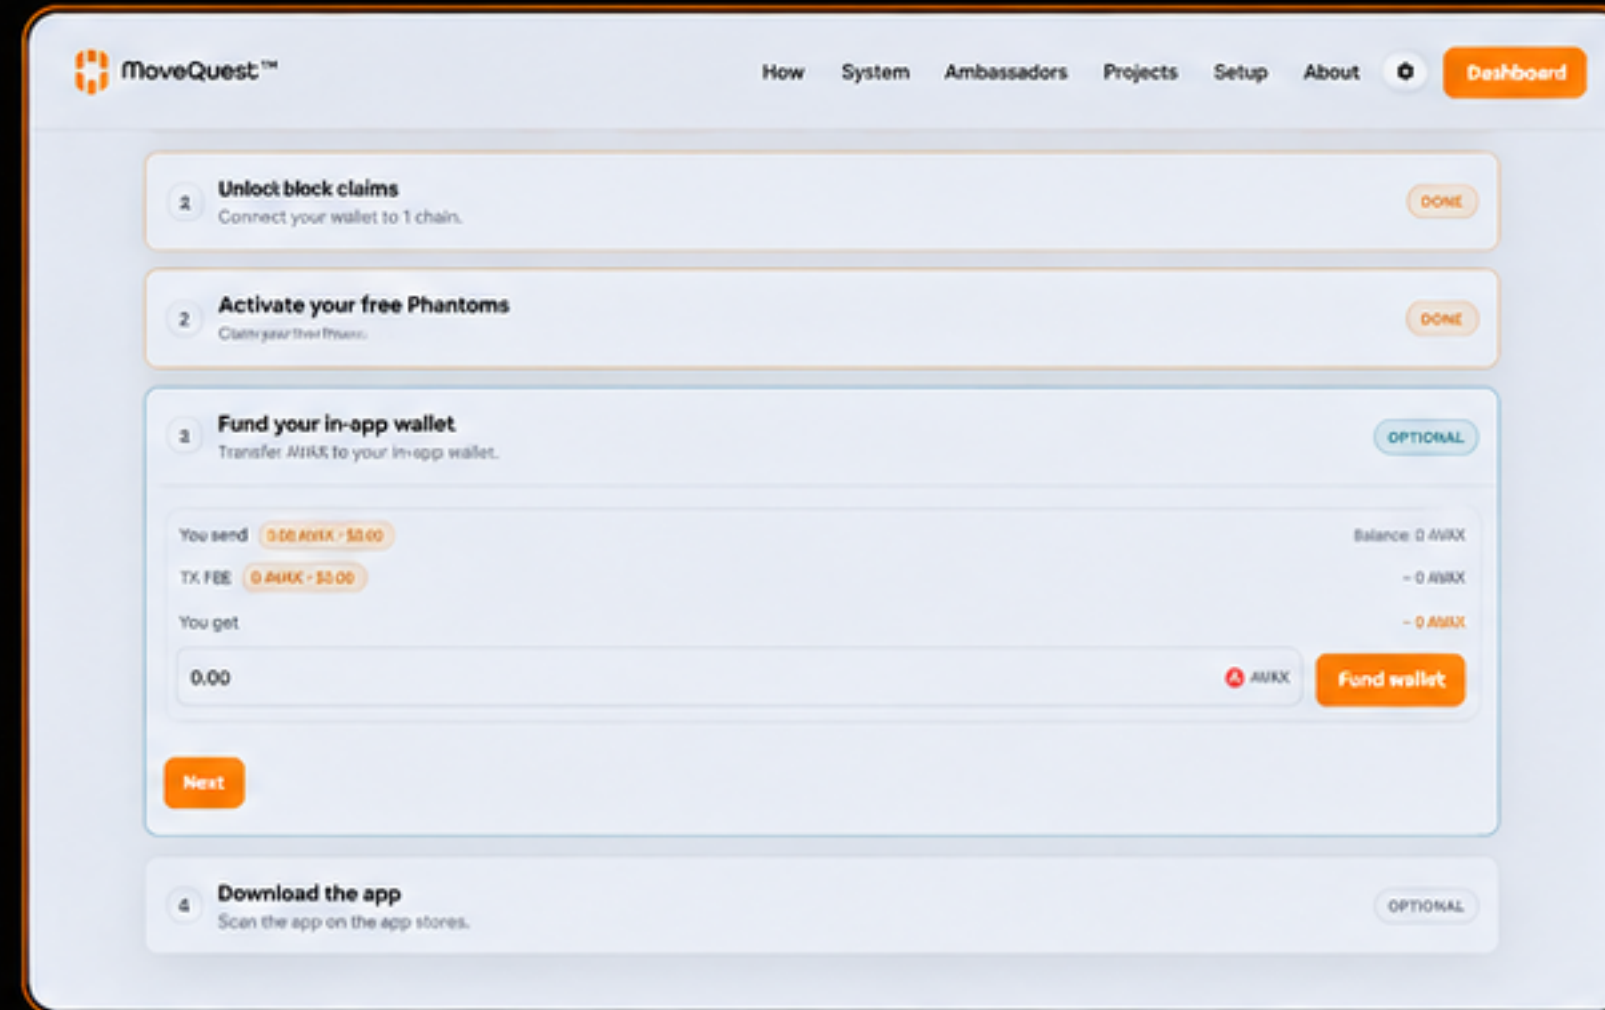

- 1 Enter the amount of AVAX you want to transfer into your in-app wallet.
- 2 Select "Fund Wallet".
- 3 Your DeFi wallet will open a transaction request.
- 4 Funds deposited into the in-app wallet can only be withdrawn to the wallet address connected to that MoveQuest account.

**Important:**

Use AVAX and keep enough available for gas fees.

Part 1 • Step 7 of 7

STEP 7

Confirm and Verify Funding

✓ Funding complete

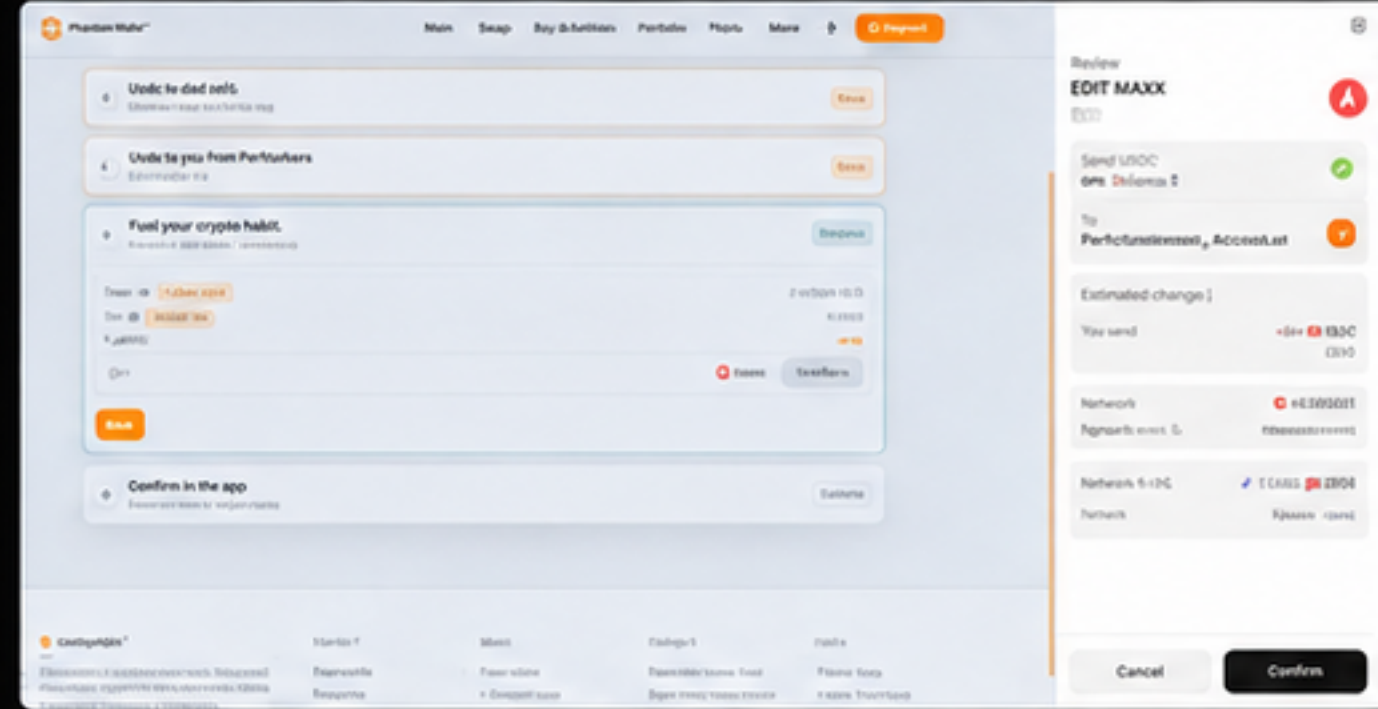

- 1 Review the transaction and select “Confirm” in your wallet.
- 2 When the funding alert appears, select “OK”.
- 3 Confirm that the new balance appears in your in-app wallet.
- 4 Your in-app wallet balance will also appear in the MoveQuest app once setup is complete.
- 5 Select “Next” to continue.

Balance Updated

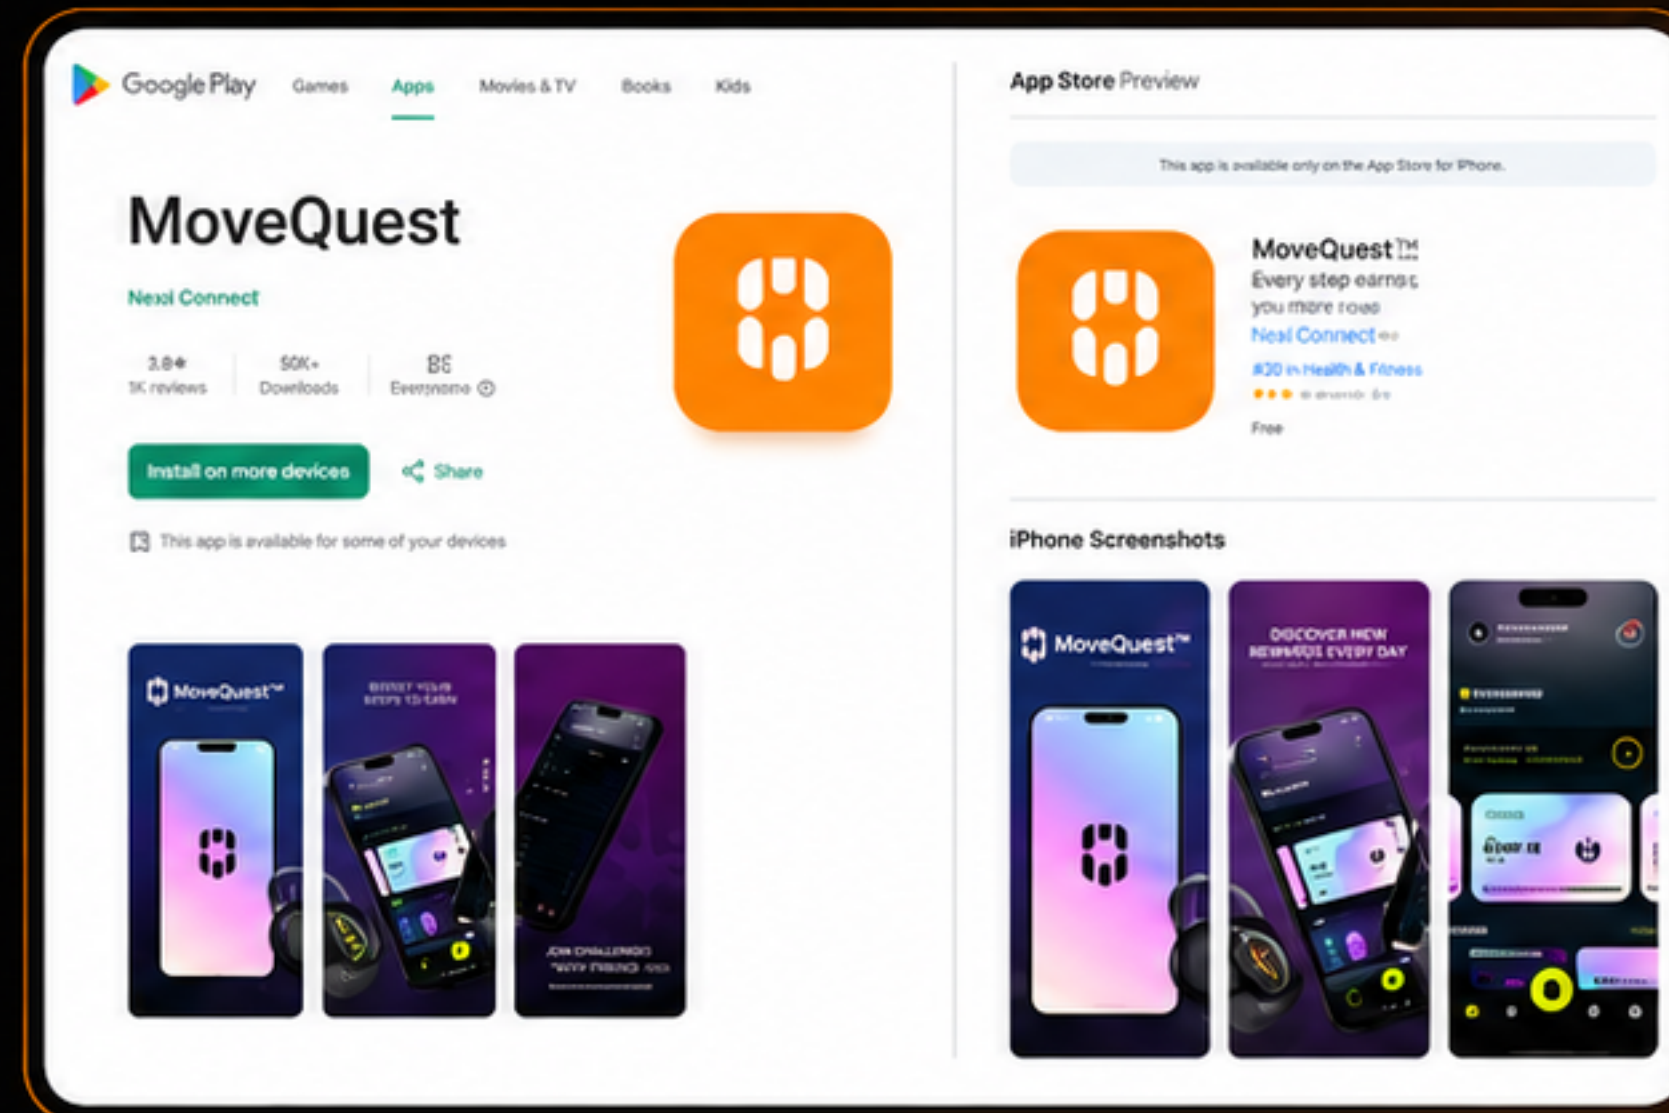

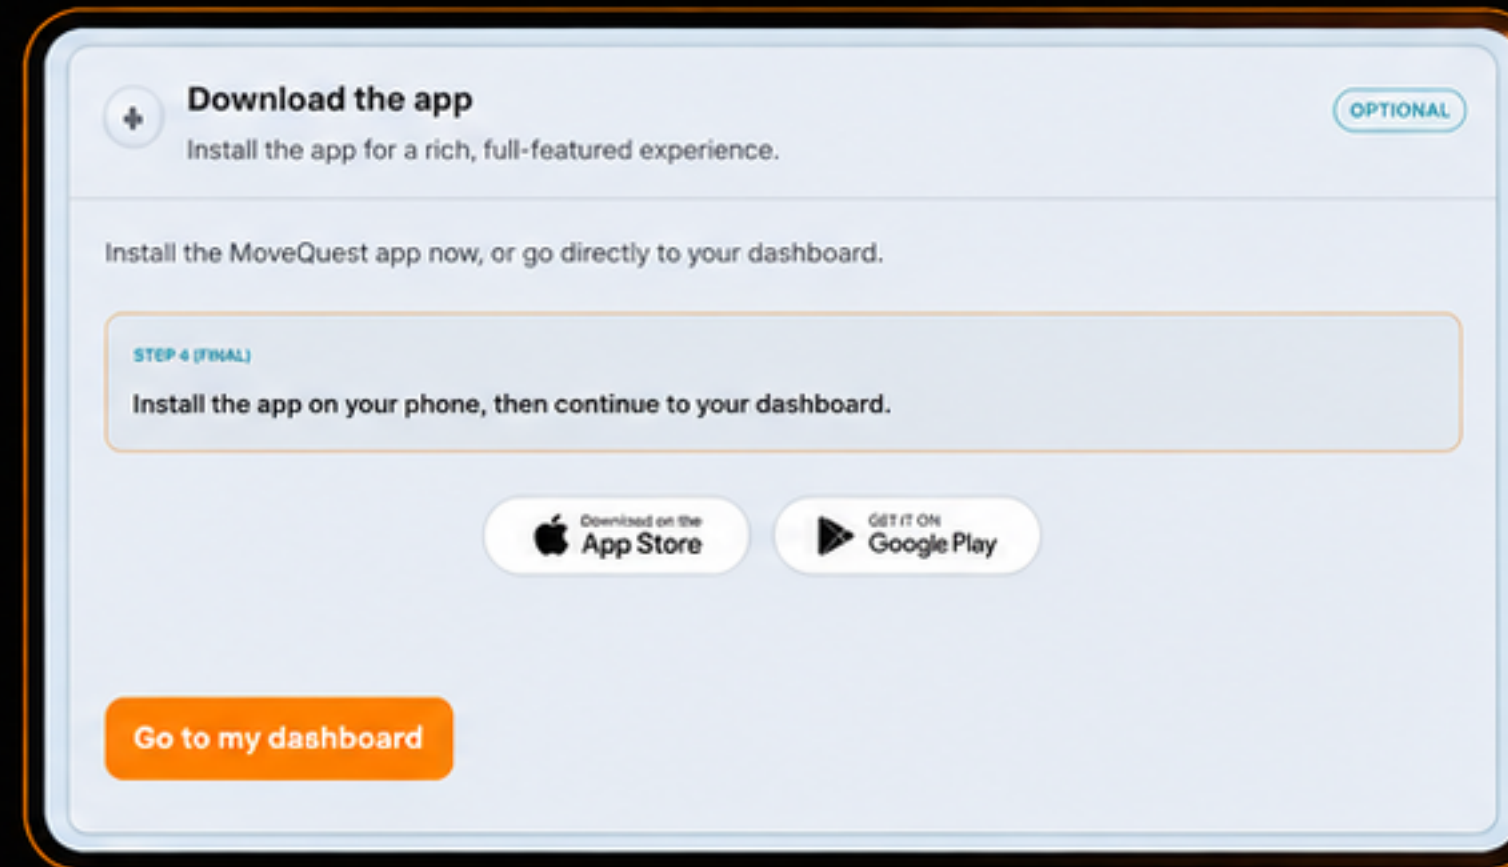

• FINAL STEP

Download the MoveQuest App

- 1 On the final setup screen, select the appropriate App Store or Google Play button.
- 2 Follow the prompts to install the MoveQuest app on your mobile device.
- 3 When using a computer, you can also search for "MoveQuest" directly in the App Store or Google Play on your phone.
- 4 After installation, open the app and complete the account setup prompts.
- 5 Select "Go to My Dashboard" to access your newly created MoveQuest account.

Your **in-app wallet balance** will also be visible inside the MoveQuest app once setup is complete.

● PART 1 COMPLETE

Your Account Is Set Up

You've completed the web account setup and are ready for the next phase.

- ✓ Connected and registered your DeFi wallet
- ✓ Activated your free Phantom Miners
- ✓ Funded your in-app wallet
- ✓ Downloaded the MoveQuest app

Next up: Part 2 • Mobile App Setup

Continue with the app walkthrough to finish your in-app profile and permissions.
